With BridgeIT mini you
can make/receive calls
from/to Skype™ users:

Make calls from your PBX to any
Skype™ enabled device
(desktop application, desktop phone,
softphone or contact center).

Receive calls by any Skype™
user directly to your
receptionist desk, contact center,
IVR or your extension .

With **BridgeIT mini*** gateway we provide our resellers and integrators with:

- Opportunity to gain significant revenue in short term by upgrading every telephony system you are maintaining.
- Opportunity to win new deals and businesses by adding value with new features to your offers.
- Open new market niche with companies that are using Skype™ software more than telephony.
