ΠΑΝΕΠΙΣΤΗΜΙΟ ΠΕΛΟΠΟΝΝΗΣΟΥ

Are you struggling for a decent dissertation topic?? No worries.

We have a collection of application concepts for dissertations.
You have a fresh, creative brain. Great!

Let's team up so you create real world apps while delivering your dissertation.

First Telecom invites you to visit our event

Dissertations for the real world
Where academia meets the market

The event will be held on **15 October 2015, Lecture room I5** with the following program

11:00-11:15	**Word of introduction** *Team with us* Petros Papadimitriou, Founder and CEO, University of Karlsruhe	
11:15-12:00	**Advanced scraping/crawling around the Web** *Web page retrieval and semantically meaningful data extraction* Konstantinos Raissis, CTO, NTUA	Attend this event and get insight into the dissertation topics that the market needs.
12:00-12:45	**Portal concepts in the python realm** *Principles of portal design and implementation using the Python language* Argiris Xiros, ICT Developer, UoP	
12:45-13:30	**Q&A**	

We are looking forward to seeing and talking to you!
