# D315

Gigabit switch and USB support

# D315

# **Key features**

- · Gigabit switch | USB port
- · Dual IPv4/IPv6 stack
- · Wideband audio
- · 5 configurable function keys with LEDs
- · 4 SIP identities

The D315 is a professional phone with a high resolution display that fulfils all important requirements of VoIP telephony as well as providing numerous functions that are of value in the business world.

# **Business Class Connectivity**

The extensive connectivity options provided in the D315 make this telephone a safe long-term investment for your telephony network. A high-speed USB port enables the user to connect a variety of accessories such as D3 expansion modules or Wi-Fi sticks. In addition, the D315 has a gigabit Ethernet switch for connectivity to a gigabit Ethernet LAN to ensure that you get the most out of your local connections, and a VPN client to enable the integration of an additional security layer when required.

# Flexible Placement

The D315's flexible design makes it suitable for use in a wide variety of environments, including offices, call centers, and reception areas. The D315 can be used as a desk phone, its gently inclined, European-style keyboard making it ideal for easy dialing with minimal impact on the user's hand, and it can also be wall mounted without the need for any additional hardware.

### **Investment Protection**

Designed to last, the D315 features a dual IPv4/IPv6 stack, which ensures that it is future proof even as networks evolve. It also has the new Snom sensor hook switch designed for durability and reduced wear, ensuring a long product life even when the phone is used extensively and over long periods.
